PROFESSIONAL SUMMARY

Software Engineer with over two years of experience building and improving web applications using Angular, TypeScript, and Firebase (Google Cloud Platform) within the banking and fintech sector. Experienced in bug fixing, feature development, API integration, and UI implementation for client-facing systems. A fast learner with a strong problem-solving mindset and growing expertise in AI-assisted development workflows. I graduated cum laude in Computer Engineering.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, HTML, CSS

Frameworks & Libraries: Angular, React, Bootstrap

Cloud & Backend: Firebase, Google Cloud Platform (GCP), REST APIs

AI-Assisted Development: Claude Code (CLI), Claude Cowork, OpenClaw

Design Tools: Figma, Adobe XD

Core Strengths: Problem solving, analytical thinking, communication

PROFESSIONAL EXPERIENCE

Software Engineer

International IT Solutions OPC | June 2025 – Present

- Enhanced and maintained a custom API- and JavaScript-based system that automates the generation of dynamic HTML content, improving output consistency and reducing manual effort.
- Analyzed business requirements and delivered tailored solutions within a specialized business system, translating client needs into functional features.
- Developed and maintained custom JavaScript scripts running within a specialized business system to support automation and reliable day-to-day operations.

Software Engineer

Pulsar Software Development | October 2023 – May 2025

- Improved existing Angular and Firebase (GCP) systems through bug fixes and feature requests for banking solutions serving clients across the APAC region.
- Built and used a custom API- and JavaScript-based system to automate the generation of dynamic HTML content.
- Revamped the UI of an existing Angular system, collaborating with developers to apply design principles with strong attention to detail.

System Analyst (Intern)

Pixel8 Web Solutions & Consultancy Inc., Legazpi | June 2022 – July 2022

- Identified problems and developed solutions through structured research.
- Created system design artifacts including MFDs, flowcharts, FIFs, wireframes, and prototypes to support development.

EDUCATION

Bachelor of Science in Computer Engineering

Bicol University – Polangui Campus | August 2019 – July 2023 | GWA: 1.744 (Cum Laude)

- Thesis: IoT-Based Thermoelectric Cooler for Breastmilk Preservation with Temperature Control and Monitoring.

ACHIEVEMENTS

- Latin Honors, Cum Laude (2023).
- 3rd Place, 18th Bicol University Student Research and Development Forum (2023).
- 2nd Runner-up, 2022 Region 5 CpE Challenge – C++ Programming (2023).
- Champion, ICpEP.se-BU CpE-Lympics Programming Competition – C++ Programming (2022).

ORGANIZATIONS

- Institute of Computer Engineers of the Philippines (2024 – Present).

LANGUAGES

- English – Full Professional Proficiency.
- Filipino – Native / Bilingual Proficiency.
